Martin Luther King Jr. Park QuickStart Tennis Court Project

The Land & Water Conservation Fund Grant guidelines require that a resolution of support from the Governing Body be provided, along with our grant request to Wyoming Department of Parks & Cultural Resources. We are requesting \$64,500.

The L&WCF is Federal money that come through the State and is awarded once each year on a competitive basis, with very specific criteria. The projects to be considered must be “outdoor recreation”.

The grant requires a 50/50 match. The estimated cost of the project is \$129,000. We are proposing that our local match of \$64,500 be supplied through the Parks & Recreation Department funds and “in-kind” in the amount of \$30,000, City of Cheyenne Ward One Contingency Funds of \$8,197, a grant from the USTA of \$23,240, and other grant funding of \$3,063; totaling \$64,500.

Our project will include four QuickStart tennis courts. These tennis courts are smaller and are perfect for children learning to play tennis. This approach is a new play format for kids ages ten and under, to introduce them to the sport of tennis. These courts are also popular with seniors, those with bad knees, obese people, and the mobility-challenged. Many people will benefit from this new format of play. Four QuickStart courts fit on the same size space as one full-size adult tennis court. The United States Tennis Association is strongly advocating this court style.

A resolution of support for this grant request is required for consideration
